Subject: Microsoft Settlement

It s time that we move on and get back to business. This country and Microsoft have been at war long enough. This is hurting the computer business and the economy. Please do not allow this to them to continue to try to break a company that was doing their best to provied products to people to increase their productive lives. This is suppost to be a free market country but it seems like it s ok with the competer does things that are misleading but MS is not allowed. Please do not change the ruling and close the case. Thank you for your time. Sally Wise
